

Obubu Tea Packaging Options

This document displays currently available tea packaging options.

Loose leaf tea is available in small size retail package (usually 80g zip-lock paper coated aluminum bags) and big size wholesale packaging (usually 1kg aluminum bags).

As for tea powders, drinking grade tea powders are packaged in 100g aluminum ziplock bags as well as in 25g aluminum bags. Cooking grade tea powders are available in 500g aluminum bags as well as in 100g aluminum ziplock bags.

As a default, packages are provided with Obubu product labels. However, blank packages are available upon request if you wish to use your own brand labels.

Obubu does not provide label printing or custom packaging services. If you wish to use packaging other than displayed in this document, we recommend to purchase in bulk and repackage yourself.
